

Supreme Winner

The judges commented "It is a fabulous piece of landscaping work that allows for individuality in each space, and yet still exhibits cohesiveness between all the gardens. The restrained and simplistic use of materials really demonstrates and emphasises how each plant and material was selected with careful thought and consideration to create a beautiful environment, which also complements the quality paving and outstanding finish."

SUPREME WINNER

Landform Consultants Ltd

Project: College Crescent

The title of Supreme Winner of 2015 APL Awards is bestowed upon Landform Consultants Ltd, who landscaped a collection of gardens and courtyards for six new homes in Hampstead. The stunning series of spaces consists of 6 individual gardens and one communal entrance courtyard. All the builds work in both day and night, due to subtle lighting, and strategic planting. Each garden boasts a bespoke water feature and quality finish which reflects the idea of an extension of the internal living space.

This garden was entered and constructed by Mark Gregory of Landform Consultants and designed by John Davies Landscape. This entry is also the winner of the Project Value over £150,000 category (Member B).

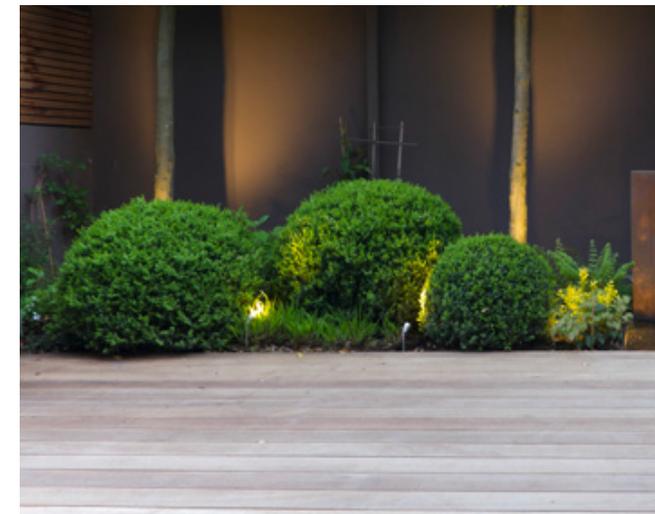

Member B Project Value Over £150,000

Landform Consultants Ltd created a series of gardens to accompany a series of new build houses, all of which also share a communal courtyard. The gardens use light and a selection of materials to create inviting, warm spaces, all of which contain an individual water feature. The spaces are both functional and beautiful, and have achieved the target of being an extension of the inside.
